

Yogesh Lamichhane

Basic Info

 : yogesh@castorisdead.xyz  : [+977-xxx-xxxx-xxx](tel:+977-xxx-xxxx-xxx)  : [whoisyoges](#)  : www.castorisdead.xyz

A tech-savvy, Linux Server Administrator, cPanel certified WHM Administrator, DevOps Engineer and Cloud practitioner with a solid command of Linux and BSD systems. Leveraging 1.5+ years of professional experience to expertly configure, deploy, maintain, and automate servers, hosting, email, and DevOps solutions.

Core Technical Skills

- Operating Systems:** Proficiency in various operating systems, including **Linux**, BSD, Windows and MacOS.
- Server Administration:** Experienced in server administration skills, capable of troubleshooting and configuring web servers such as **Apache**, **Nginx**, Litespeed, and Caddy to deliver optimal web hosting solutions.
- Cloud Platforms:** Proficient in setting up and fine-tuning cloud services across platforms such as **AWS**, Azure, and Linode, to guarantee applications can grow seamlessly, stay secure, and run at their best.
- Networking:** Proficient in a wide range of networking protocols, encompassing DNS configurations, IP routing, firewalls, proxies (reverse/forward), (S)FTP, SCP, HTTP(S), SSL, SSH, SMTP, IMAP and more.
- CI/CD Tools:** Competent in employing **Github**, GitHub Actions, Webhooks, and **Jenkins** as part of CI/CD workflows to streamline software development.
- Containerization:** Experienced in utilizing **Docker** for effective containerization and application deployment.
- Web Development Technologies:** Proficient understanding of diverse web development technologies including HTML,CSS, PHP, Laravel, WordPress, Python, Django, Node.js, and its associated libraries.
- Database Management:** Competence in handling various database management systems like **MySQL**, PostgreSQL, SQLite.
- Content Delivery Networks:** Skilled in leveraging Netlify, Vercel, and Cloudflare for optimized content delivery networks.

Professional Experience

Hyperce - Kathmandu, Nepal
DevOps Engineer (Remote)
April 2024 - Present

- Proficient in automating development processes and deploying scalable servers remotely, especially within AWS infrastructure using services like Route 53, S3 buckets, RDS, EC2, ECR, ECS, and load balancers.
- Skilled at managing cloud resources to ensure application reliability, security, and efficiency, while adhering to DevOps best practices for streamlined collaboration and accelerated software delivery.
- Regularly used Docker, Jenkins and Github actions to streamline development following microservice architecture and maintaining system consistency, collaborating on seamless web application and database deployment with Git for version control.

Nest Nepal - Kathmandu, Nepal
Server Administrator and Technical Support Specialist (On-Site)
January 2023 - February 2024

- Engaged in the seamless setup, deployment, migration, and optimization of websites to enhance performance and security, while managing domains, installing SSL certificates, fortifying system security through firewalls, and facilitating transitions between hosting environments to optimize website accessibility and security.
- Regularly administered and maintained cPanel/WHM, DirectAdmin (DA), and CyberPanel, performing server setup, account management, and troubleshooting tasks.
- Configured and fine-tuned email servers like Postfix and Exim, along with managing workspace solutions like Google Workspaces (G Suite) and Zoho Workspace.
- Consistently resolved complex Linux server issues and efficiently utilized WHMCS for streamlined billing, ticketing, and automation, boosting operational efficiency.

Professional Skills

- Problem Solving:** Ability to analyze, troubleshoot and solve technical problems efficiently, often under pressure.
- Patience:** Demonstrated patience when dealing with individuals who may have varying levels of technical expertise.
- Communication:** Excellent verbal and written communication skills to explain technical concepts to non-technical individuals clearly.
- Time Management:** Effective time management skills to prioritize and handle multiple tasks simultaneously.
- Teamwork:** Collaboration with colleagues and other departments to resolve complex issues.
- Adaptability:** Flexibility to adapt to changing technologies and industry trends.
- Continuous Learning:** A commitment to ongoing learning and staying updated on the latest technologies and best practices.

Certifications

CWA	CPANEL & WHM ADMINISTRATOR CERTIFICATION Certificate ID: ce69-c501-e38e-b07d This certification from cPanel university validates my comprehensive skills in server administration, including configuration, optimization, and troubleshooting within the WHM (Web Host Manager) interface.
CPC	CPANEL PROFESSIONAL CERTIFICATION Certificate ID: abcc-ad7c-478f-0388 This certification from cPanel university demonstrates my in-depth understanding and proficiency in utilizing cPanel, to effectively manage web hosting environments, streamline website management tasks, and provide exceptional support to clients.
